### **Statement from the director of the institute on the Final Report of the Commission No. 6 – Biochemistry and molecular cell biology, biophysics, virology, ...**

The on-site evaluation took place in the Biology Centre (BC) campus on November 18, 2015. We have no comments to the structure of the evaluation process and its course.

#### **Evaluation of the Biology Centre as a whole**

The overall impression from the Commission report is positive, no weaknesses or threats were identified provided that stable funding is secured. The Commission declared the position of BC as “excellent internationally and unique in the Czech Republic and perhaps in CEE”.

We thank the Commission for its statements and have no comments to them.

#### **Evaluation of the teams**

##### **Team No. 1 – Molecular biology and genetics**

We greatly appreciate the evaluation of the team by the Commission. We are very pleased by the positive results of the evaluation. We hope we will be able to sustain or even enhance the scientific performance of our research team in future.

##### **Team No. 15 – Evolutionary parasitology**

We greatly appreciate the evaluation statements and are very pleased by the positive results of the evaluation.

**In summary we have no objections against the statements in the Final Report.**

České Budějovice, January 20, 2016

Prof. Ing. Miloslav Šimek, CSc.  
Director of the BC
